

# Touch the Skye

**Skye by Pikos** showcases what's possible when premium materials and complete systems come together. Featuring our integrated wall and ceiling systems throughout this project, this landmark development demonstrates how the right systems work together to deliver an iconic build.

## A SYSTEM YOU CAN TRUST

From steel stud and track systems to compounds, access panels and fixings, every component worked together as one complete, integrated solution. In partnership with **Fineline Contractors** and **Tomkins Commercial**, our wall and ceiling systems supported all 23 storeys, delivering efficiency and a high quality finish at every level.
